WORKING WITH DATA TILES

EXTEND WHAT YOU ALREADY DELIVER.

Help your customers turn the data investments they've already made into trusted business use, AI and better decisions.

YOUR EXPERTISE

DATA TILES

**MORE VALUE FROM EXISTING
CUSTOMER INVESTMENT**

THE OPPORTUNITY

THE INVESTMENT ALREADY EXISTS.

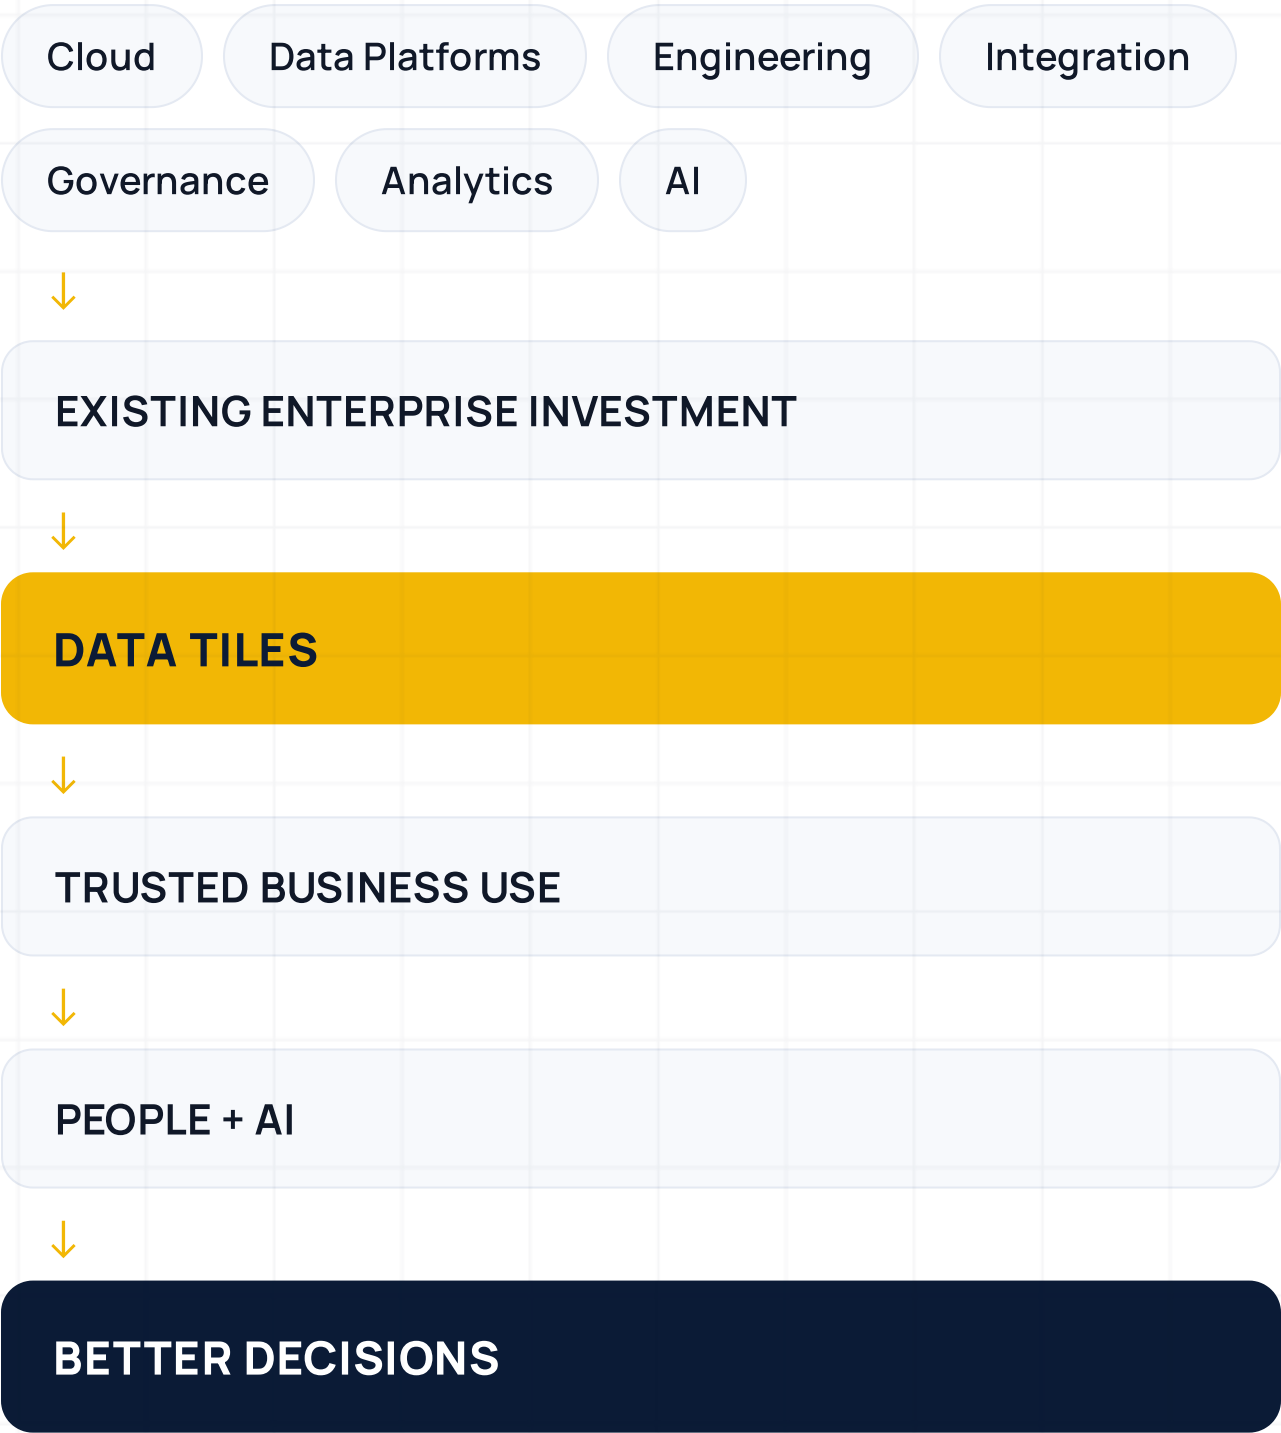

Enterprise customers have spent years investing in cloud, data platforms, engineering, integration, governance, catalogs, analytics and AI.

The next opportunity is getting more of that investment into trusted business use.

NO RIP AND REPLACE.

We help activate what's already there.

START WITH THE DECISION. WORK BACKWARDS.

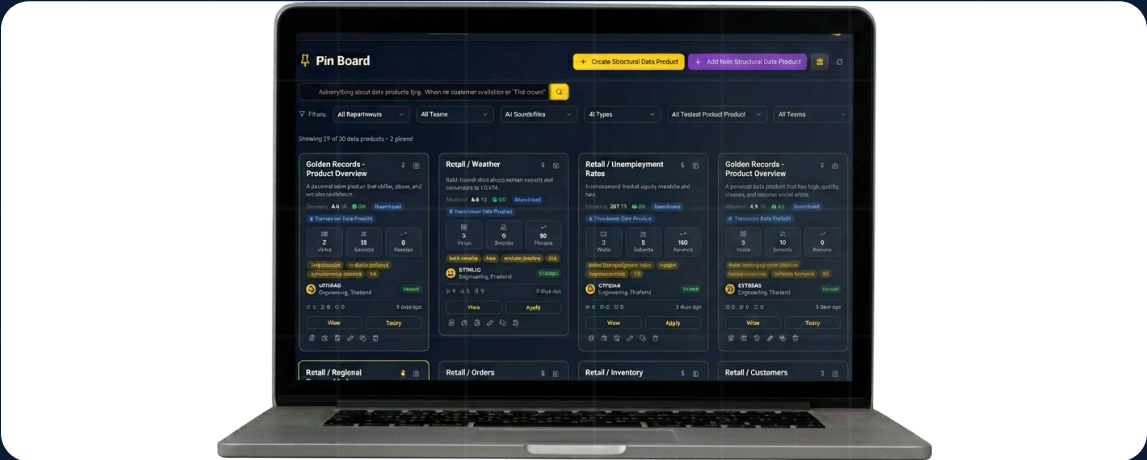

THE SOFTWARE

FROM BUSINESS UNDERSTANDING TO TRUSTED AI.

LATTICE

The Zero-Code Data Product Workbench

Business and data teams create trusted, reusable data products carrying the context and governance needed for real business use.

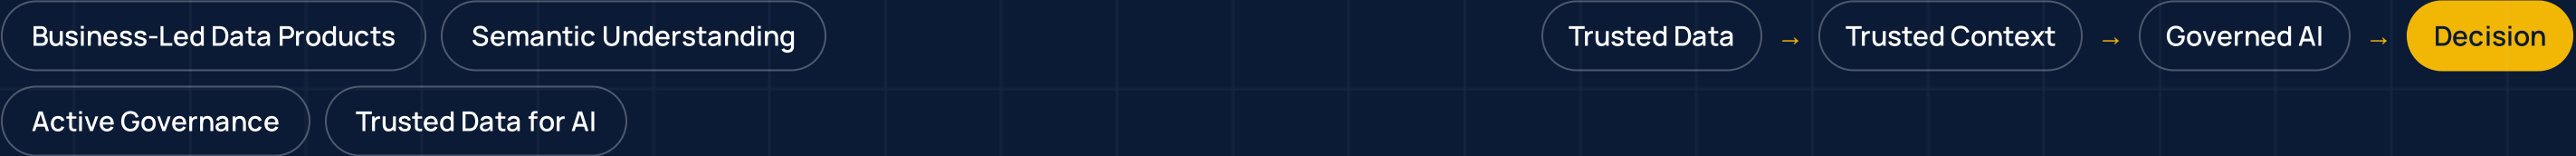

TRUSTED
BUSINESS
UNDERSTANDING

LENZ

The AI Agent Factory

AI agents operate from trusted data products with business context and governance already attached.

PEOPLE AND AI WORK FROM THE SAME TRUSTED BUSINESS UNDERSTANDING.

THE DIFFERENCE

AI NEEDS MORE THAN ACCESS TO DATA.

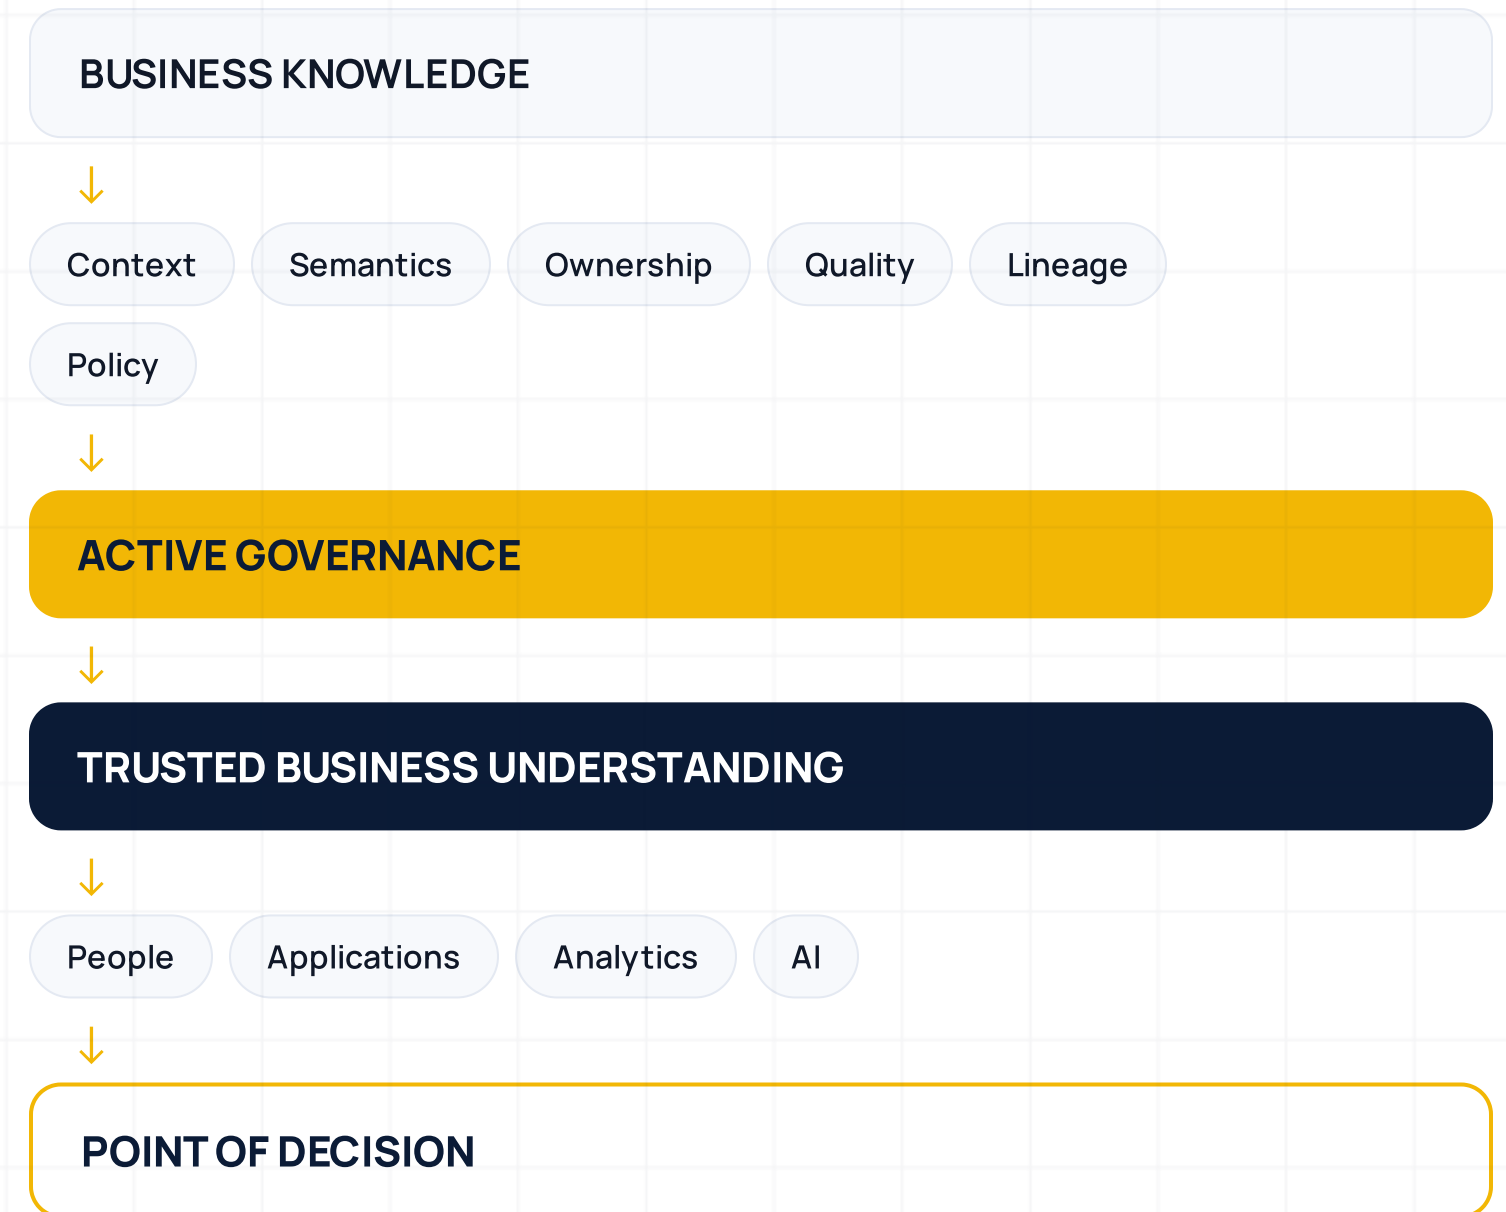

An AI answer can look convincing and still be wrong.

AI needs the business understanding that tells it what the data means, how it should be used and what governs the decision.

**AI INHERITS THE UNDERSTANDING
INSTEAD OF BEING EXPECTED TO INFER IT.**

THIS IS THE DECISION-DRIVEN ENTERPRISE.

A PRACTICAL PATH TO PARTNER CONFIDENCE

THE DATA TILES 3×3 APPROACH

Build Latttice delivery confidence through real customer implementations.

First 3

01

DATA TILES LEADS · PARTNER SHADOWS

Learn alongside our team through real Latttice implementations.

Next 3

02

PARTNER LEADS · DATA TILES SHADOWS

Build delivery confidence with our team alongside you.

Then

03

READY TO LEAD

Practical capability built through experience.

AND WE STAY FLEXIBLE.

Where an opportunity brings Latttice and Lenz together, we can extend the approach around the customer, solution and needs of the partner.

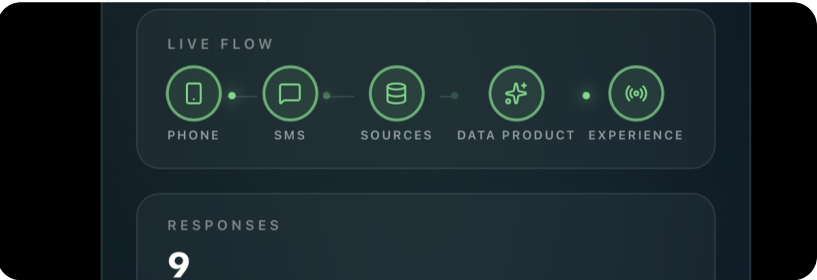

THE GOAL IS SIMPLE:
GIVE PARTNERS THE CONFIDENCE TO MOVE FORWARD WITH CUSTOMERS.

SEE WHAT WE MEAN

DON'T JUST READ ABOUT IT. EXPERIENCE IT.

1 EXPERIENCE LATTICE LIVE

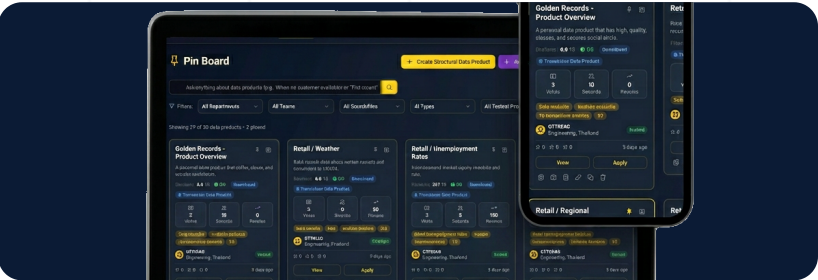

Change the data yourself and watch a live data product respond.
